

INVITATION: Startup- and benchmark trip to Berlin and Leipzig November 19-21, 2019

Why Berlin and Leipzig

Both Berlin and Leipzig are among the absolute winners when it comes to climbing different city rankings in Germany and both are top ranked in these. Rankings involving everything from economic performance, future demographic development trends and key business factors like education, innovation, internationality and accessibility. Also the cities are very close to each other, 1 hour and 15 minutes by train. For West Swedish companies within relevant sectors it is really interesting to explore these cities and very much so for startups wanting to grow in our neighbouring super economy. We have the possibility to visit some of the most interesting incubators, accelerators and a digital venture (investment program) founded by Porsche among others.

Aim

1. Building a first business network within the startup sector in Berlin and Leipzig and get a good understanding for different incubators, accelerators and "Science Parks".
2. Get insight into APX investor network and Tailormade program + for participating companies/startups to learn and train by pitching for audience at APX.
3. Potential B2B meetings with other companies in the incubators and science parks that we visit
4. Highlight potential market entry opportunities through key stakeholders within the sectors of IT, smart infrastructure and e-mobility.
5. Inform on the regional support that can be given by players such as Leipzig Invest, Business Sweden, Swedish Chamber of Commerce in Germany to Swedish companies.

Timeline:

2,5 days programme (including matchmaking for participating companies) with key stakeholders, incubators/accelerators, site visits and participation in Business Day in Berlin on November 21.

Participants / Focus Group:

Swedish companies from sectors in which Sweden is especially competitive, in particular

- ICT
- Automotive – e-mobility
- Infrastructure
- E-health

Companies from other related areas may apply to join and we will investigate how they match with the whole programme.

Programme (may be subject to smaller changes):

Leipzig

SpinLab

Accelerator for Startups and young companies. They support with connections to Venture Capital and coaching the founding team (<https://spinlab.co/>)

Smart Infrastructure Hub

It’s a federal initiative for smart solutions with different topics. In Leipzig the focus is on infrastructure and topics like, e-health, smart city and energy. It is managed by the SpinLab because there is overlap of topics with the innovative start-ups. www.smartinfrastructurehub.com

ACOD - www.acod.de

Mobility Projects: Absolut – www.absolut-projekt.de ; e-Jit - www.e-jit.de

Berlin

Axel Springer Plug and Play

Venture between the Plug and Play tech Center and Axel Springer SE. Plug and Play Tech Center is an international startup accelerator that has been making it big since 1990. Located in Sunnyvale, California, Plug and Play has made a business in people and connections. It has housed companies like Google, Paypal, Logitech and DropBox and partnered prestigious universities and big corporate companies. www.axelspringerplugandplay.com

APX – By Axel Springer and Porsche

Multi sectorial investor program through a joint venture between Axel Springer and Porsche. Multi Early stage investor with a Tailormade program. www.apx.ac

APX Pitch Sessions Tuesdays

<https://www.meetup.com/APX-Axel-Springer-and-Porsche-Berlin/events/kpcqngyzpbzb/>

Startup Incubator Berlin –

<https://www.startup-incubator.berlin/?lang=en>

Networking activities / Pitch session / Matchmaking:

- Business matchmaking (your company profile is sent to key players at the accelerators / incubators upon your confirmation)
- Start up companies will be able to participate in a pitch session at Axel Springer Plug & Play and APX on November 19. (more info will be provided upon registration)
- Dinner with key players
- Meeting with local promotional agencies: Leipzig Invest and Germany Trade & Invest
- Meeting Swedish organisations in Germany: Business Sweden and Swedish Chamber of Commerce

Participation fee & Application:

Participation in full programme is financed by Regional Export Center Västra Götaland and partners. Participants cover their own direct travel costs (flight, hotel and meals).
